

BILL AGAINST LYNCHING ENDORSED BY JUDICIARY COMMITTEE OF CONGRESS

**Congressman Madden Feels Assured It Will Easily Pass
House And Senate And Will Be Signed By The
President. Other Activities Along The Lines
Of Square Dealing With The Race
Are Encouraging**

Associated Negro Press
WASHINGTON, D. C., July 12.—With the Harding administration approaching the half year mark, the people throughout the country are beginning to "take the measure" of the President, and to see whether the "big show" is living up to its promise. In his campaign speeches, and even since his inauguration, Mr. Harding has himself made a record of human rights on the highest level of the nation.

There have been some set backs to the expectations of the population, but the people have not been disappointed. The President has given assurance to those who have recently demanded matters with him, that he will keep the faith. Congressman Melvin B. Madden, of the first district of Illinois, in Chicago, has introduced the Associated Negro Press that the bill against lynching has been introduced by the Judiciary Committee of the House, and that the same will soon be reported to the House. It is Congressman Madden's opinion that the bill will easily pass the House and Senate, and that the President will sign it.

Congressman Tinkham continues to force the issue on the consideration of the bill to enforce the Fourteenth and Fifteenth Amendments. Floor leader Melvin B. Madden has done all in his power to block the consideration, but without success. Many Congressmen still are not in favor of looking into the subject. Many Congressmen still are not in favor of looking into the subject. Many Congressmen still are not in favor of looking into the subject.

The appointment of Henry Lewis Johnson, as Recorder of Deeds has opened up a big new line of discussion. Mr. Johnson, has all along, indicated that he did not wish a position. However, it is understood that the administration regarded Johnson, as the "one best" to fulfill the administrative post of recordation, which has sometimes been considered about on the whole, until the fact has been known that there should be something done.

The next few weeks will without question bring some surprising developments. There are movements on in several cities in several parts of the country calculated to make political circles in all their efforts up and take action. The American National Committee are confident of the facts and will meet the facts with

Mumford countered by having Representative Barbour of California, issue a call for a conference on congressional responsibility. Accordingly, Representative Tompkins of Iowa, chairman of the Judiciary conference, convened a caucus to consider both subjects.

Townsend who previously had indicated that responsibility was germane to enforcement of the Fourteenth Amendment, held that enforcement was not germane to responsibility. There was a noisy demonstration against the calling. Mr. Mumford tried to force an adjournment of the conference, but he was outvoted five to one. Then there was an agreement to adjourn to meet later. Mr. Mumford seemed to have Mr. Tinkham agree to majority leader. Mr. Mumford then said that all "lynchings" in the House be notified that the conference had been canceled. Orders were given the doorkeepers to close the chamber of the House.

PRESIDENT ROSS, COLLEGE OF WEST AFRICA, DIES EN ROUTE TO AMERICA

Special To The Argus
NEW YORK, July 12.—The recent arrival in this country of Mrs. Samuel John Ross, widow of the late President of the College of West Africa, Monrovia, Liberia, brings to mind the untimely death of the most useful and versatile leaders of his race. President Ross died on his way to America, en route to America.

During his college career, he achieved these qualities for leadership which have made his name well known among his people of two continents. He received the degree of Bachelor of Arts and Bachelor of Divinity in 1904, at which time he was president and editor of the college paper. During his career at Lincoln he won three gold medals for oratory. In 1907 he entered the college of divinity and was elected president of the college. He married Mrs. Pearl F. Thompson, of Chicago, in 1908, and in May of that year sailed for Port Harcourt to begin his medical career with the present work of his interest in Africa under the direction of one of his former professors who had charge of several dispensaries there. In 1915 after two years' work, the ill health of Mrs. Ross caused their return to the United States. Mr. Ross received a medical degree in 1918, when he was elected to the college of divinity and was elected president of the college of divinity and was elected president of the college of divinity.

I am confident the public don't want this fight. Dempsey will never accept it to a large extent according to the public wishes. I can see my way clear to fight Johnson or any other colored man."

Continuing about prospects for his own fight, Dempsey said: "I will meet any one that Kenzie picks for me, Gibson, I understand is a good man, although I never have seen him. As I have drawn the color line, I am free to say that I think Harry Wills is a great fighter, one who will give the very best of me. You know as much about Johnson as I do. For William T. INTERESTING REPORT OF BOSTON URBAN LEAGUE

BOSTON, July 13.—Matthew W. Black, Executive Secretary of the Boston Urban League presented at the League's annual meeting in Boston a summary of the year's activities of this organization which has aroused considerable interest in far-reaching social work in the city. The League has during the year conducted a large number of campaigns to bring to the colored citizens a larger amount of social service, than has been conducted among the colored people during the previous year. An industrial survey was made which brought to light some startling facts: The Negro population in 1916 numbered 15,000 persons was represented in 121 industries. This survey to be an excellent showing until further analysis showed that 21 industries employed 1 Negro each, as against 5 each, 85 less than 10 each and 52 less than 20 each. According to this State Census the Negro was poorly represented in the skilled trades, there being 7 mechanics, 7 cabinet makers, 17 brick and stone masons, 8 carpenters, 31 machinists, 1 electrician, 1 electrical engineer, 4 stationary engineers, 31 machinists and millwrights, 21 bakers and tailors, 10 painters and plumbers, 23 seamstresses and dressmakers, 42 shoemakers and boot makers, 10 road sweepers, 10 car and truck drivers, 10 electric and cable installers, 10 cigar and tobacco factories, 10 and mechanical, 10 light and power, 10 printing, 10 electric supply factories, 10 car and trucking industry, 10 food and grain, 10 fruit and vegetable, 10 manufacturing, 10 sugar, factories and related.

It was found that 68 per cent of the colored women were employed in industrial occupations while only 20 per cent of foreign-born women and 35 per cent of the native white women were employed. The girls among white and females are in the mental and unskilled occupations. The League, therefore, felt itself justified in making the following efforts: 1—to increase the number of plants where colored people are employed; 2—to pay more attention to the preparation of colored children for commercial in skilled trades; 3—to further activities looking toward increasing the income of the average family as to educate more mothers to remain at home to look after the interest of their children; 4—to make that delinquency be reduced and home life raised to a higher standard.

During the year the League conducted an employment bureau and secured the appointment of a boy, who was a member of the colored people, to work in connection with the Central Y. M. C. A. This boy, who is a large number; 2—to pay more attention to the preparation of colored children for commercial in skilled trades; 3—to further activities looking toward increasing the income of the average family as to educate more mothers to remain at home to look after the interest of their children; 4—to make that delinquency be reduced and home life raised to a higher standard.
